

## iX CARBON for drinking water

Specifically designed for taste, colour, and odour improvement. With 4 stage filtration the iX CARBON water filter is specifically designed to deliver fresh, great tasting water\* for coffee, tea or drinking water.

\*in areas where water is soft and limescale does not form.

### QUALITY, CLEAN CLEAR WATER

The iX CARBON provides the perfect filtration product for soft water regions, where scale is not an issue, by filtering the water to produce a clear, improvement in the quality of taste, colour, and odour. A silver impregnated Granular Activated Carbon (GAC) combined with a final, additional carbon block further improves quality of water.

iX Head sold separately. [Click here](#) to view the spec sheet.

### A truly eco-friendly cartridge water filter.

With our insert refill technology, you can decide whether to quickly change by easily fitting a replacement cartridge or maximise cost saving and reduce environmental impact by just changing the insert.

## Features & Benefits

- Comes in two sizes, 01 and 02.
- Silver Impregnated Granular Activated Carbon (GAC) improves the quality of taste, colour, and odour
- NSF Certified components & certified media
- Made in Britain
- Simple installation
- Filter housing is re-usable, and filters are easy and economical to replace.
- No waste - replace & return the insert refill.
- Suitable for most drinking water applications where limescale does is not an issue

*The bypass on the iX Head when attached to the iX Carbon filter, must be set to 0 to ensure no hard water is dialled back into the water supply.*

**CONTINUED OVERLEAF**

| iX Carbon Specifications |                     |
|--------------------------|---------------------|
| Flow Rate (LPM)          | 7                   |
| Min Pressure             | 1.5 bar             |
| Max Pressure             | 6 bar               |
| Max Temperature (°c)     | 35                  |
| Connections              | 3/8" PF or 3/8" BSP |
| Operation Position       | Vertical            |

This illustration serves as explanation of the filter technology. It is not to scale.
